Pinout Solutions

technologies for
Industry 4.0
Take your innovation to the very next level

SERVICES

Pinout Solutions provides companies and research centers with the most advanced tools to support their innovation and R&D activities. Our toolbox offers organizations the opportunity of extracting valuable knowledge from data, either by developing ad-hoc ICT platforms for information management and visualization or by discovering underlying trends and patterns using Big Data & Artificial Intelligence. Due to our experience in Cloud and mobile environments, our solutions can be adapted to fit each specific project needs, connecting all the cycle from basic research to end-user approaches

TECHNOLOGIES

Cloud Architectures	Automation
Data Analytics	Internet of Things
Machine Learning	SW development

PROJECTS & AWARDS

Horizon 2020 project consortium beneficiaries / 2017 - 2020
